

Here is some information about me:

I did PHD coursework at the University of Texas and earned my MS in Computer Science from Texas A&M. I was certified by Microsoft, Oracle, and CompTIA. For the last 20 years, I have worked as a Data Modeler, Software Development Engineer, Database Designer, IT Technical Architect, or IT Director at places like Microsoft, Starbucks, AT&T Wireless, professional firms, and IBM.

I have a full-time job as a data and database professional specialized in both the relational and NoSQL technologies in addition to teaching.
